## SPRING TRADE LIST

**1957**

**NURSERYMEN FOR 75 YEARS**

**THE**  **COLE** **NURSERY CO.**  
PAINESVILLE, OHIO

**Phone ELmwood 2-3121**

## TERMS and CONDITIONS OF SALE

**PRICES** are F.O.B. nursery at Painesville, Ohio. Any boxing or baling necessary is charged at near cost. Prices in this list are subject to market changes and cancel those in all previous price lists.

**TERMS.** 1% 10 days; net 30 days to those having established credit with us. Cash orders receive 2% off. Be sure to include enough to cover packing, so as to eliminate C.O.D. costs. Overpayments returned promptly. C.O.D. orders must be accompanied by at least 1/3 of the amount of the order.

**CLAIMS** for rejections, shortages, or other reason will be entertained only if made within 5 days after arrival of goods.

**GUARANTEE.** We guarantee all stock to be true-to-name and free of injurious insects or disease. All goods travel at consignee's risk; we assume no responsibility after they leave the nursery. It is mutually agreed that in no case shall we be held liable for a greater amount than the purchase price of any item.

**SHIPMENTS.** Please state routing of your shipments and method you prefer. Where no instructions are given, we will ship according to the situation, as we think best serves your interest.

## TRUCKING

During planting season, our trucks make frequent deliveries to Cleveland, Columbus, Cincinnati, Detroit, Buffalo and Pittsburgh areas. Trucking can easily be arranged to other cities within 500 miles of Painesville. Rates reasonable.

# SHADE & ORNAMENTAL TREES

Cole's has long been known for producing the finest in trees for all markets. Continuous research for improved varieties and production methods has resulted in our present leadership in this field. Planted in seven-foot rows, our trees have ample room for proper development of root, body and top. Because all digging and root-pruning is done mechanically, you benefit by a **vastly superior root-system** and consequent transplanting success.

## NOTES

The size immediately following the name indicates approximate height at maturity, in cultivation.

Where an item is usually moved with a ball of earth, we indicate the recommended B&B size after the listing, thusly: (4 to 5 ft. 15" Ball), and the price includes balling charges. Should earth balls be desired on other items, prices and weights are listed on page 48.

Although caliper listings of trees are also indicative of top development, we imply no relationship of this measurement to height. This is entirely subject to differences in variety and cultural practices.

	1-4 Each	5-24 Each	25 Up Each
<b>ACER dasycarpum (saccharinum) — 70'</b>	<b>Silver Maple</b>		
Fast growing, graceful. Leaves silvery beneath.			
Stands rather wet conditions, heat and drought.

2½ to 3 in.	20.00		

**i. Moraine Thornless Honeylocust, Pat. No. 836**

Round-headed when young, but tall and vase shaped when older. Clean—no seed pods or thorns. All individually staked to provide straightest stems possible.

1¼ to 1½ in.	12.20	11.00	
1½ to 1¾ in.	15.00	13.50	

The outstanding new Majestic Locust is listed on page 10.

# *Introducing* TWO NEW MEMBERS OF THE COLE "ROYAL FAMILY OF TREES"

After years of experiment and study on more than ten thousand individual trees, and further close observation and test with two hundred and sixty early selections, Cole now presents a whole new family of Thornless Honeylocusts. Each tree was selected with a specific form and purpose in mind. First came the spectacular Golden Sunburst, already becoming familiar in all parts of America. Now we are proud to introduce these new aristocrats, each distinct in its foliage and habit.

## IMPERIAL LOCUST

(Plant Patent Pending)

OLE'S new IMPERIAL Locust is an exceptionally graceful, spreading variety that is destined for recognition as one of the outstanding trees of this age. Branches are symmetrically arranged, forming a much more regular and compact tree than other Honeylocusts. It grows straight and strong **without staking**, and produces a dense and uniform crown with a minimum of trimming in the nursery.

Numerous, well-spaced branches emerge from the trunk at nearly 90-degree angles thereby assuring strong crotches. The prolific branching results in a uniform, fairly broad, yet compact head. Even small nursery trees, as young as two years old, have the appearance of rather mature specimens.

The foliage is dainty and refined and has a fresh green color. Leaves are spaced closer than on the Common Honeylocust and, because of the dense branching habit, form a more dense cover. Many thousands of flowers have been observed. All were staminate and no seed pods were produced.

## SKYLINE LOCUST

(Plant Patent Pending)

**C**OLE'S new SKYLINE Locust is a stately and unusual variety with distinctive pyramidal form. It develops an exceptionally strong, sturdy trunk and shapely crown without being **staked or specially trimmed**.

Branches are uniformly spaced and arranged, resulting in a well-filled tree of rather formal appearance. Strong crotches result from the wide angle — 60 to 90 degrees — at which the branches diverge from the trunk.

The leaves of SKYLINE are dark green and of a heavy, leathery texture. They are more closely spaced, and the leaflets are larger than the average Honeylocust produces, thereby contributing to the compact appearance of the crown. An added touch is the reddish-bronze cast which characterizes the emerging leaves.

Practically all of the flowers produced are male; but infrequently a polygamous flower has appeared in which a single floret is female. Since only a small percentage of these female florets are pollinated, seeding is of minor importance.

## MAJESTIC THORNLESS HONEYLOCUST

Plant Patent No. 1534

**One of the Cole "Royal Family of Trees"**

A strong, exceptionally graceful tree of spreading growth habit, Majestic is much more regular and compact than the ordinary Honeylocust. It is entirely thornless and grows straight without staking.

The bold, abundant foliage is extremely dark green when mature, retains its richness even in drought or wet soils. Flowers are occasionally polygamous, but seeding has been relatively light.

Here is a sturdy tree of outstanding style and character available at **ordinary prices.**

2 yr. Field Grown .....	\$ .50	\$ .35	\$ .30

Seems that something good nearly always follows a disaster like our severe May 23rd frost.

Nearly 20 inches of rain fell here during July and August. Had a thunderstorm every weekend. Fishing was only fair and the picnicking lousy, but the shrubs and trees have never looked better.

**Above: Truehedge Columnberry.** Plants in foreground trimmed once just before this picture was taken.

**Left: Untrimmed plant of Truehedge** on the right; Japanese Barberry to its left.

## COLE'S TRUEHEDGE COLUMNBERRY

*Berberis thunbergii erecta*

Rigidly columnar, compact form requiring almost no trimming. Valuable for narrow hedges, formal specimens, window boxes, etc. Glossy dense foliage turns red uniformly in autumn. Can be held as low as 1 foot tall.

2 to 3 ft. (250 up \$0.38) .....	.70	.55	.45

**o. aurea — 9'****Golden Ninebark**

Popular golden leaved form of above.

2 to 3 ft. (250 up \$0.38) .....	.70	.55	.45
----------------------------------	-----	-----	-----

**o. nana — 5'****Dwarf Ninebark**

Dwarf, bushy form; dainty deep green leaves. One of the finest clipped hedges at Morton Arboretum.

12 to 18 in., (250 up \$0.22) .....	.50	.35	.30
2 to 3 ft. (250 up \$0.40) .....	.75	.60	.50
3 to 4 ft. (250 up \$0.50) .....	.85	.70	.60

**POTENTILLA farreri (Gold Drop)—2½' New Bush Cinquefoil**

Small, compact, very hardy shrub with dainty fernlike leaves. Brilliant deep yellow flowers the entire summer.

Use in rockeries, or foreground of borders and foundations

2 year No. 1 .....	.90	.75	.65
--------------------	-----	-----	-----

**PRUNUS glandulosa rosea — 4-5'****Double Pink Almond**

Very double, pink flowers in early spring. Cutting-grown.

1½ to 2 ft. own root .....	.70	.55	.45
2 to 3 ft. own root .....	.80	.65	.55

**tomentosa — 6-7'****Manchu Cherry**

Extremely hardy, serviceable plant, used as hedges or specimens. Flowers profuse, pinkish-white; fruits bright red.

2 to 3 ft. ....	.85	.70	.60
3 to 4 ft. ....	1.00	.85	.75
4 to 5 ft. ....	1.30	1.10	1.00

**RHAMNUS frangula — 12'****Glossy Buckthorn**

Vigorous dense, thornless shrub. Dark lustrous foliage; red berries turning black. Stands shade and dry soils.

2 to 3 ft. ....	.70	.55	.45
-----------------	-----	-----	-----

## New Tallhedge

Luedy

### COLUMNAR BUCKTHORN

*Rhamnus frangula columnaris*  
Plant Pat. No. 1388

Vigorous, dense growth forms a compact, narrow hedge up to 12 to 15 feet tall, or may be easily sheared to as low as 4 ft. Lustrous dark green foliage; succession of attractive berries all summer change through cream, pink and red to black.

An ideal, thornless variety that fills a long-standing need for a good, tall, narrow hedge or accent plant.

	1-9 Each	10-29 Each	30 Up Each
1½ to 2 ft. ....	.90	.75	.65
2 to 3 ft. ....	1.00	.85	.75

Potted liners — 250 or more, 25c each;  
100 to 249, 28c each.

### RHODOTYPOS scandens (kerrioides) — 6'

Jetbead

Starry white flowers in June; jet black berries all winter. Fresh green foliage. Does well in semi-shade.

	1-9 Each	10-29 Each	30 Up Each
1½ to 2 ft. ....	.70	.55	.45
2 to 3 ft. ....	.80	.65	.55
3 to 4 ft. ....	1.00	.85	.75

### RHUS aromatica (canadensis) — 5'

Fragrant Sumac

Excellent, round-growing shrub doing well under extremes of drought, moisture and shade. Thick, aromatic foliage is brilliant in fall. Small yellow flowers in May; bright red fruit in summer.

	1-9 Each	10-29 Each	30 Up Each
15 to 18 in. ....	.55	.40	.35
1½ to 2 ft. ....	.70	.55	.45
2 to 3 ft. ....	.80	.65	.55
3 to 4 ft. ....	1.10	.90	.80

### ROBINIA hispida — 4'

Rose Acacia

Large clusters of pink, pea-like flowers in May. Graceful foliage. Holds soil on banks because of its suckering habit. Sold out for spring

	1-9 Each	10-29 Each	30 Up Each
<b>ROSA multiflora</b>			
<b>Japanese Rose</b>			
Strong grower exceedingly useful for hedge-rows, screens and for holding soil in place. Arching growth with many clusters of white flowers in June and red berries fall and winter.			
1½ to 2 ft. ....	\$ .40	\$ .25	\$ .20
2 to 3 ft. (250 up \$0.25) .....	.50	.35	.28
3 to 4 ft. (250 up \$0.32) .....	.55	.40	.35
<b>rugosa — 5'</b>			
<b>Rugosa Rose</b>			
Adaptable and beautiful, bushy rose. Dark green, rugose foliage turns bright orange in fall. Large pink to white, single flowers from June on. Stands pruning well.			
12 to 18 in. ....	.50	.35	.30
1½ to 2 ft. (250 up \$0.35) .....	.65	.50	.40
2 to 3 ft. (250 up \$0.45) .....	.75	.60	.50
3 to 4 ft. (250 up \$0.55) .....	.90	.75	.65
<b>Wichuriana. Trailing</b>			
<b>Memorial Rose</b>			
Used widely for holding banks and rocky slopes and as a ground cover in sun. White flowers; shiny foliage.			
2 yr. med. ....	.65	.50	.40
2 yr. No. 1 .....	.75	.60	.50
<b>SALIX purpurea nana — 4'</b>			
<b>Dwarf Purpleosier</b>			
Compact, dense mound of blue-gray-green foliage. Extremely hardy, and grows even in wet or heavy soils. Shears well into formal hedges.			
1½ to 2 ft. ....	.50	.35	.27
2 to 3 ft. (250 up \$0.35) .....	.60	.45	.38

### ROSE GOLD PUSSYWILLOW

(*Salix gracilistyla*)

Low mounded plant to 3 ft., taking root where stems touch the ground. Foliage silvery, stays on late. Huge catkins silvery-gray, then turn silvery pink and rosy pink dotted with hundreds of bright yellow stamens, and finally become nearly solid gold.

12 to 18 in. (250 up \$0.27) .....	.50	.35	.30
1½ to 2 ft. (250 up \$0.34) .....	.60	.45	.37
2 to 3 ft. (250 up \$0.40) .....	.70	.55	.45

### SPIRAEA bumalda Anthony Waterer—3' Dwarf Crimson-flowering

Flat clusters of bright crimson flowers nearly all summer. Dense, dwarf habit, reddish green foliage.

12 to 15 in. ....	.55	.40	.35
15 to 18 in. ....	.70	.55	.45

**opulifolius — see Physocarpus**

### vanhouttei — 7-8'

**Vanhoutte Spirea**

Popular shrub, a mass of arching white in May. Used for large hedges and massing.

1½ to 2 ft. (250 up \$0.20) .....	.45	.30	.25
2 to 3 ft. (250 up \$0.25) .....	.55	.40	.35
3 to 4 ft. ....	.70	.55	.45

## EVERBLOOMING PINK SPIREA

(*Spiraea macrothyrsa*)

Blooms from late July into September with large heads of rich, warm pink flowers often 10 or more inches long on stems up to 4 feet long. Good crisp green foliage even during midsummer.

A fine plant for the shrub border and in masses on slopes, where its layering stems will hold soil against erosion.

## NEEDLE EVERGREENS

Cole's evergreens are properly spaced and sheared to produce dense, symmetrical, colorful specimens. Our light soils produce a naturally fibrous root system that assures successful transplanting. All can be shipped outside the Japanese Beetle Zone.

Prices include a definitely superior job of balling, burlapping and securely rope-tying roots.

Approximate ball sizes are given for your guidance in estimating shipping weights. See inside back cover for ball weights.

	1-4 Each	5-24 Each	25 Up Each

2 to 2½ ft. (13" ball).....	3.65	3.30	3.00
<b>horizontalis — 1'</b> <b>Creeping Juniper</b>			
Procumbent branches; green needles. Valuable ground			
cover.			
15 to 18 in. (11" ball).....	2.80	2.50	2.25

**ABOUT OUR NEW FARM**

At our new 800-acre farm, south of Circleville, Ohio, planting was begun last fall. This growing operation is being newly furnished with the most modern equipment available for use in planting, handling and storage of nursery stock. Sales and distribution will continue to be handled from Painesville for the present.

**Visitors are welcome at either farm**

**JUNIPERUS Continued**

**ABOUT OUR NEW FARM**

At our new 800-acre farm, south of Circleville, Ohio, planting was begun last fall. This growing operation is being newly furnished with the most modern equipment available for use in planting, handling and storage of nursery stock. Sales and distribution will continue to be handled from Painesville for the present.

Visitors are welcome at either farm

# BALLING SCHEDULE

In this catalog where ball sizes are shown, viz., (15" Ball), etc. this is the approximate size ball supplied. If larger or smaller balls are required, charge will be adjusted to conform to following schedule.

Where balls are required on shrubs, trees, and plants not catalogued (00" Ball), add to listed price according to the following schedule:

## SHRUBS — FLOWERING TREES

Ball Size	Wt. lbs.		1 Each	2-4 Each	5-19 Each	20 up Each
10 x 10"	32	1½ to 2'	\$ .90	\$ .80	\$ .70	\$ .65
11 x 10"	38		1.10	.95	.85	.75
12 x 11"	47	2 to 3'	1.20	1.05	.95	.85
13 x 11"	58	3 to 4'	1.50	1.35	1.25	1.15
14 x 12"	80		1.85	1.70	1.55	1.45
15 x 12"	90	4 to 5'	2.30	2.10	1.90	1.75
16 x 13"	110	5 to 6'	2.80	2.55	2.35	2.15
17 x 13"	130		3.40	3.10	2.80	2.60
18 x 14"	160	6 to 7'	4.00	3.75	3.40	3.10
20 x 15"	210	7 to 8'	5.50	5.00	4.65	4.25
22 x 16"	270	8 to 10'	7.25	6.60	6.00	5.60

## SHADE TREES

Platforms, if required, will be charged extra. Charge refunded on prepaid return intact.

20 x 15"	210	1¼ to 1½"	5.50	5.00	4.65	4.25
22 x 16"	270	1½ to 1¾"	7.25	6.60	6.00	5.60
24 x 17"	340	1¾ to 2 "	9.60	8.80	8.00	7.30
26 x 18"	450	2 to 2½"	12.00	11.00	10.10	9.20
30 x 20"	680	2½ to 3 "	17.00	15.50	14.30	13.00
33 x 22"	880	3 to 3½"	22.00	20.00	18.00	16.50
36 x 23"	1100	3½ to 4 "	27.50	25.00	22.50	20.50
40 x 25"	1500	4 to 4½"	34.50	31.50	28.50	26.00
44 x 27"	2000	4½ to 5 "	42.50	39.00	35.50	32.50
48 x 29"	2600	5 to 5½"	52.50	48.00	44.00	40.00
52 x 30"	3200	5½ to 6 "	63.00	58.00	53.00	48.50
56 x 31"	3900	6 to 6½"	76.00	70.00	64.00	58.50
60 x 32"	4800	6½ to 7 "	93.00	85.00	78.00	71.00
64 x 33"	5600	7 to 7½"	112.00	102.00	93.00	85.00
63 x 34"	6500	7½ to 8 "	138.00	126.00	115.00	105.00

Ball sizes, weights, etc. are only approximate as varieties and soil cause them to vary.

Prices include loading on open trucks or trailers. Railroad loading on "Tree" sizes entails extra costs.

Plant Patent No. 1313

## *America's Newest Tree Sensation*

The first new color in a hardy, ornamental shade tree in decades. Bright golden foliage on 8 to 10 inches of branch tips, contrasts with the rich green of the balance of the tree; appears to be in bloom all summer.

● Broadly pyramidal head and excellent branching habit creates a beautiful symmetry unmatched by other honeylocusts.

● Producing only male flowers, Sunburst is absolutely seedless and causes no ground litter.

● Sunburst has been planted from coast to coast, is adaptable to any location and transplants easily. Unusually strong, it has withstood ice and snow storms which completely ruined neighboring trees of other varieties.

### SUNBURST PRICE SCHEDULE — 1957-'58

	10-29 Each	30-299 Each	300 up Each
